CONTENTS

Volume 36. No. 1—January

Editorial
Classification of plasmid-encoded dihydrofolate reductases conferring trimethoprim resistance 1
Amyes, S. G. B., Towner, K. J. and Young, H.-K.

REVIEW ARTICLE
Antibiotic resistance in bacteria 4
Amyes, S. G. B. and Gemmell, C. G.

Comparison of *Clostridium sordellii* toxins HT and LT with toxins A and B of *C. difficile* 30
Martinez, R. D. and Wilkins, T. D.

A comparative study of specific gene probes and standard bioassays to identify diarrhoeagenic *Escherichia coli* in paediatric patients with diarrhoea in Bangladesh 37
Faruque, S. M., Haider, K., Albert, M. J., Ahmad, Q. S., Alam, A. N., Nahar, S. and Tzipori, S.

Immunochemical characterisation of a 29-Kda surface-associated molecule of *Entamoeba histolytica* and its recognition by serum from patients with amoebiasis 41
Shandil, R. K. and Vinayak, V. K.

Specific antibodies in serum of patients with hydatidosis recognised by immunoblotting 46
Kanwar, J. R., Kaushik, S. P., Sawhney, I. M. S., Kamboj, M. S., Mehta, S. K. and Vinayak, V. K.

Aggregation of human granulocytes by *Staphylococcus aureus* lipase 52
Rollof, J., Vinge, E., Nilsson-Ehle, P. and Braconier, J. H.

Resistance to desiccation and skin fatty acids in outbreak strains of methicillin-resistant *Staphylococcus aureus* 56
Farrington, M., Brenwald, N., Haines, D. and Walpole, E.

Analysis of *Aspergillus fumigatus* catalases possessing antigenic activity 61
Hearn, Veronica M., Wilson, Elaine V. and Mackenzie, D. W. R.

Announcements 68

Volume 36. No. 2—February

Editorial
Use of antibiotics in veterinary practice 69
Walton, J. R.

An experimental evaluation of the pharmacokinetics of fusidic acid in peritoneal dialysis 71
Rowe, Louise, Findon, Glenne and Miller, T. E.

Induction of the SOS gene *(umuC)* by 4-quinolone antibacterial drugs 78
Power, E. G. M. and Phillips, I.

Incidence of an aminoglycoside 6′-*N*-acetyltransferase, ACC (6′)-1b, in amikacin-resistant clinical isolates of gram-negative bacilli, as determined by DNA-DNA hybridisation and immunoblotting 83
Tran Van Nhieu, G., Bordon, F. and Collatz, E.

An investigation of β-lactamases from clinical isolates of *Bacteroides* species 89
Edwards, R. and Greenwood, D.

The rectal mucosa-associated microflora in patients with ulcerative colitis 96
Hartley, Gillian M., Hudson, M. J., Swarbrick, E. T., Hill, M. J., Gent, A. E., Hellier, M. D. and Grace, R. H.

Epithelial respiratory cells from cystic fibrosis patients do not possess specific *Pseudomonas aeruginosa*-adhesive properties 104
Plotkowski, M. C., Chevillard, M., Pierrot, D., Altemayer, D. and Puchelle, E.

The protective activity of immunostimulants against *Listeria monocytogenes* infection in mice 112
Tomioka, H., Sato, K. and Saito, H.

Congenital bacterial sepsis in very preterm infants 117
Thompson, P. J., Greenough, Anne, Gamsu, H. R., Nicolaides, K. H. and Philpott-Howard, J.

Isolation of haemin-binding proteins of *Neisseria gonorrhoeae* 121
Lee, B. C.

Diagnostic significance of circulating immune complexes in patients with pulmonary tuberculosis 128
Radhakrishnan, V. V., Mathai, A. and Sundaram, P.

Factors affecting production of the group A streptococcus bacteriocin SA-FF22 132
Jack, R. W. and Tagg, J. R.

Announcements 139

Volume 36. No. 3—March

Editorial
Pertussis in adults: significance for disease transmission and immunisation policy 141
Hewlett, E. L.

Serological and biological characteristics of "*Streptococcus milleri*" isolates from systemic purulent infections 143
Kitada, K., Nagata, K., Yakushiji, T., Eifuku, H. and Inoue, M.

A numerical taxonomic study of the "*Streptococcus milleri*" Group based upon conventional phenotypic tests and pyrolisis mass spectrometry 149
Winstanley, T. G., Magee, J. T., Limb, D. I., Hindmarch, J. M., Spencer, R. C., Whiley, R. A., Beighton, D. and Hardie, J. M.

Localisation of the mitogenic epitope of staphylococcal enterotoxin B 156
Binek, M., Newcomb, J. R., Rogers, C. M. and Rogers, T. J.

Comparison of enterotoxins and haemolysins produced by methicillin-resistant (MRSA) and senstitive (MSSA) *Staphylococcus aureus* 164
Coia, J. E., Browning, Lynda, Haines, Lorraine, Birkbeck, T. H. and Platt, D. J.

Use of contour-clamped homogeneous electric field (CHEF) electrophoresis to type methicillin-resistant *Staphylococcus aureus* 172
Wei, M.-Q., Wang, Fu and Grubb, W. B.

Identification of a human lactoferrin-binding protein in *Staphylococcus aureus* 177
Naidu, A. S., Andersson, M. and Forsgren, A.

Isolation of a novel siderophore from *Pseudomonas cepacia* 184
Sokol, P. A., Lewis, C. J. and Dennis, J. J.

A non-haem agglutinating form of *Clostridium difficile* toxin A 190
Kamiya, S. and Borriello, S. P.

Detection by ELISA of low numbers of Shiga-like toxin-producing *Escherichia coli* in mixed cultures after growth in the presence of mitomycin C 198
Law, D., Ganguli, Leela A., Donohue-Rolfe, A. and Acheson, D. W. K.

Host factors *versus* virulence-associated bacterial characteristics in neonatal and infantile bacteraemia and meningitis caused by *Escherichia coli* 203
Tullus, K., Brauner, Annelie, Fryklund, Birgitta, Munkhammar, T., Rabsch, W., Reissbrodt, R. and Burman, L. G.

Identification of an endoflagellar associated protein in *Borrelia burgdorferi* 209
Eiffert, H., Schlott, T., Hoppert, M., Lotter, Hannelore and Thomssen, R.

Variation of the O antigen of *Campylobacter jejuni in vivo* 215
Mills, S. D., Kuzniar, B., Shames, B., Kurjanczyk, L. A. and Penner, J. L.

Announcements 220

Volume 36. No. 4—April

Editorial
Human herpesvirus—6 221
Irving, W. L.

Opsonophagocytosis of *Pneumocystis carinii* 223
Taylor, M. B., Phillips, Michelle and Easmon, C. S. F.

Adherence and entry of *Borrelia burgdorferi* in Vero cells 229
Hechemy, K. E., Samsonoff, W. A., Harris, H. L. and McKee, M.

Evidence for independent molecular identity and functional interaction of the haemagglutinin and cysteine proteinase (gingivain) of *Porphyromonas gingivalis* 239
Shah, H. N., Gharbia, S. E., Progulske-Fox, A. and Brocklehurst, K.

The effect of humoral and cell-mediated immunity in resistance to systemic serratia infection 245
Kumagai, Y., Okada, K. and Sawae, Y.

***Klebsiella* capsular type K7 in relation to toxicity, susceptibility to phagocytosis and resistance to serum** 250
Podschun, R. and Ullmann, U.

Amplification of 16S rRNA sequences to detect *Mycobacterium paratuberculosis* 255
Van Der Giessen, J. W. B., Eger, A., Haagsma, J., Haring, R. M., Gaastra, W. and Van Der Zeijst, B. A. M.

Entero-adherent *Escherichia coli* is an important diarrhoeagenic agent in infants aged below 6 months in Calcutta, India 264
Ghosh, A. R., Nair, G. B., Naik, T. N., Paul, Mousumi, Pal, S. C. and Sen, D.

Enterotoxicity of clinical and environmental isolates of *Aeromonas* spp. 269
Singh, D. V. and Sanyal, S. C.

***Citrobacter diversus* brain abscess: case reports and molecular epidemiology** 273
Morgan, M. G., Stuart, C., Leonard, A. T., Enright, M. and Cole, G. F.

Biotypes of *Haemophilus parainfluenzae* from the respiratory secretions in chronic bronchitis 279
Taylor, Diana C., Cripps, A. W., Clancy, R. L., Murree-Allen, K., Hensley, M. J., Saunders, N. A. and Sutherland, D. C.

Effect of bioamines on uptake of promastigotes of *Leishmania donovani* by hamster peritoneal macrophages 283
Mitra, Smita, Ghosh, Lagnajita, Chakrabarty, Pampa, Biswas, Madhumita, Bhattacharyya, Kathlene F. and Ghosh, D. K.

The production of bacterial fatty acids from glycerides in staphylococcal abscesses 288
Shryock, T. R. and Kapral, F. A.

Modification of bactericidal fatty acids by an enzyme of *Staphylococcus aureus* 293
Mortensen, J. E., Shryock, T. R. and Kapral, F. A.

Announcements 299

Books Received 300

Volume 36. No. 5—May

Editorial
Cyanobacteria and human health 301
Hunter, P. R.

Association of *Vibrio cholerae* with fresh water amoebae 303
Thom, Susan, Warhurst, D. and Drasar, B. S.

Proteolytic activity of *Clostridium difficile* 307
Seddon, S. V. and Borriello, S. P.

Experimental rabbit model of meningitis produced by *Haemophilus influenzae* serotype c 312
Sulc, P., Hengstler, B., Krinke, G., O'Reilly, T. and Zak, O.

Neutrophil response to mucosal infection 318
Phillips, A. D., Shah, A. R. and Walker-Smith, J. A.

An epidemiological assessment of coagulase-negative staphylococci from an intensive care unit 321
Walcher-Salesse, Sieglinde, Monzon-Moreno, C., Aubert, Sylvie and El Solh, Névine

The accumulation of bactericidal lipids in staphylococcal abscesses 332
Shryock, T. R., Dye, E. S. and Kapral, F. A.

Effect of capsulation on the resistance of *Staphylococcus aureus* to the bactericidal lipids produced in abscesses 337
Mortensen, J. E. and Kapral, F. A.

Immunoblotting patterns with *Mycoplasma pneumoniae* of serum specimens from infected and non-infected subjects 341
Aubert, G., Pozzetto, B., Hafid, J. and Gaudin, O. G.

Immune response to *Giardia lamblia* in a water-borne outbreak of giardiasis in Sweden 347
Ljungström, Inger and Castor, Birgitta

Antibacterial activity of a 1,8-naphthyridine quinolone, PD 131628 353
Lewin, C. S.

Production and characterisation of mouse monoclonal antibodies reactive with the lipopolysaccharide core of *Pseudomonas aeruginosa* 358
Nelson, J. W., Barclay, G. R., Micklem, L. R., Poxton, I. R. and Govan, J. R. W.

Books Received 366

Errata 366

PROCEEDINGS OF THE PATHOLOGICAL SOCIETY OF GREAT BRITAIN AND IRELAND

Volume 36. No. 6—June

THE 14th C. L. OAKLEY LECTURE
***Candida albicans* HSP 90: link between protective and auto immunity** 367
Matthews, Ruth C.

Rapid identification of *Legionella* species from a single colony by gas-liquid chromatography with trimethylsulphonium hydroxide for transesterification 371
Nalik, H. P., Müller, K.-D. and Ansorg, R.

Dissemination and proliferation of *Salmonella typhimurium* in genetically resistant and susceptible mice 377
Xu, H. R. and Hsu, H. S.

Application of biochemical fingerprinting to the investigation of clonal groups of *Salmonella* of serotype Havana 382
Katouli, M., Kühn, I., Brauner, A., Farhoudi-Moghaddam, A. A. and Möllby, R.

In-vitro and in-vivo characteristics of Tn*phoA* mutant strains of *Salmonella* serotype Gallinarum not invasive for tissue culture cells 389
Barrow, P. A., Lovell, M. A. and Old, D. C.

Comparison of rapid methods for detection of heat-labile (LT) and heat-stable (ST) enterotoxin in *Escherichia coli* 398
Czirók, Éva, Semjén, G., Steinruck, H., Herpay, Maria, Milch, Hedda, Nyomarkay, Ildiko, Stverteczky, Zsofia and Szeness, Agnes

Adhesion of *Shigella dysenteriae* type 1 and *Shigella flexneri* to guinea-pig colonic epithelial cells *in vitro* 403
Guhathakurta, B., Sasmal, D. and Datta, A.

Mechanism of persistent infection associated with peritoneal implants 406
Ward, K. H., Olson, M. E., Lam, K. and Costerton, J. W.

Ribotyping of coagulase-negative staphylococci 414
Cookson, B. D., Stapleton, P. and Ludlam, H.

An ultrastructural study of *Helicobacter mustelae* and evidence of a specific association with gastric mucosa 420
O'Rourke, Jani, Lee, A. and Fox, J. G.

Virulence and adhesive properties of serotypes A and B of *Candida albicans* isolated from paediatric burn patients 428
Kennedy, M. J., Johnson, Ayodele, M., Volz, P. A., Neely, Alice N. and Yancey, R. J.

Quantitative analysis of immunoglobulin G subclass responses to *Pseudomonas aeruginosa* antigens in cystic fibrosis 437
Likavcanova, E. and Lagacé, J.
